Land Tax Search

What is a Land Tax Search?

A Land Tax Search certificate is issued by the State Revenue Office (SRO). It shows the land tax payable for that property for the financial year, and includes an estimate of land tax owing by a property vendor at settlement date.

Why do I need a Land Tax Search?

The Land Tax Search shows the land tax that is:

- outstanding on the property you are selling and on all other properties on your land tax account (this amount must be paid before finalising the sale/transfer);
- payable for the property for the financial year (this will help you to calculate how much land tax can be recovered on settlement).
